

# Bright White

*Gemma Treby and Georgie Campbell test the world of Hollywood Smiles with Cathedral Dental*

## Enlighten Whitening System

### Georgie says:

With my wedding now just weeks away, whitening has always been something on my to-do list, but with such a variety of products, methods and product strengths on the market, knowing where to start was enough of a challenge to put me off. From my first meeting with Indy I knew I was in safe hands, as he talked me through the variety of techniques on offer.

Opting for the Enlighten Whiting System, which promises 'top of the range' results and a natural smile, the 14-day treatment was exactly what I needed. Working my way through 10% and 16% gels, over two weeks, I was then invited into the practice for an hour session, which left my teeth next to faultless. I couldn't be happier with the results and in such a short space of time too! Now topping up until my big day, I'm sure I'll be smiling from ear to ear as I show off my new look.

**FIVE  
TREATMENTS  
AVAILABLE**

## White Dental Beauty

### Gemma says:

Last month I was lucky enough to have my Fast Braces off, which have left my teeth looking, by my own admission and everyone else's, amazing... yet the teeth beautification does not stop there when it comes to the heroes at Cathedral Dental. There's now a course of teeth whitening to endure before I'm 'selfie' ready. The dentistry practice founder, Indy Singh, advised a product called White Dental Beauty, which is a top of the range treatment and one of the least time-consuming products offered.

The system uses the highest percentage of professional peroxide allowed, which promises fast and long term results.

Dispensing 8 syringes of product, each syringe provides approximately four applications... but the results have been fantastic. I have only had to use one syringe and my teeth could not be whiter, I'm so impressed. What's great is that my other 7 syringes can be used for top ups throughout the year, making the product great value.

## The Cathedral Dental Way

Offering a range of whitening techniques, Cathedral Dental gives patients the smile they want. Whilst some may want super white teeth and others only a little bit lighter, the ranges on offer help patients choose treatments to suit their lifestyles, time frames and application methods. By giving their patients state-of-the-art toothpastes and gels to use before they have the treatment, the team help conquer sensitivity whilst also ensuring the treatment is as effective as possible.

**With five treatments ranging from £125 to £595, find the right way for you at Cathedral Dental.**
