

Dental Excellence

Creating happy smiles since 2009, Cathedral Dental in Bury St Edmunds is one of the UK's top Invisalign® providers and creates a positive and inspiring environment for its patients

When did Cathedral Dental launch and what is your ethos?

Indy bought and launched Cathedral Dental in 2009. His goal was to provide patients with the ultimate customer experience, and he achieved this by using the best, most cutting-edge dental treatments combined with fantastic customer service.

Our marketing and Invisalign manager, Danah joined the practice in 2015 and has been a massive part of the Cathedral Dental journey, making the practice what it is today. We have won multiple industry awards for our marketing campaigns and our innovative social media, and are one of the top Invisalign providers in the country. We've designed a fun-filled, positive environment where our patients can feel comfortable and inspired, whilst receiving a wow service, in our treatments, care and the smiles we create.

Invisalign is one of your specialities; how does it work?

Invisalign is a removable clear brace that, when worn, enables teeth to be straightened discreetly and efficiently with minimal visits to the practice. The treatment is entirely digitally planned, which improves the accuracy and the efficiency of the tooth movement. Furthermore, by taking a 3D digital scan of your teeth, we can show you an outcome simulation of what your teeth could look like after treatment. This way, you can see the improvement in your smile before committing to treatment. We offer a complimentary no-obligation consultation.

Can you share some feedback from patients?

Here's what two clients said about their Invisalign treatments:

Jessica - After years of feeling self-conscious about my teeth, I finally decided to do something about it. Glad I found Cathedral Dental. Friendly and professional service. Just completed my Invisalign treatment. Would highly recommend it!
Tara - Invisalign changed my life - my confidence has grown SO much! I just wish I'd taken the plunge sooner. The team at Cathedral Dental are experts in their field and would recommend anyone to go and see them.

Teeth whitening has never been more popular. What services do you offer in this area?

We offer Enlighten Evolution, which is the Rolls Royce of the whitening world! It is a combination teeth whitening program that

utilises both at-home teeth whitening and an in-chair treatment to ensure the teeth are left looking up to 16 shades whiter than before. Enlighten guarantees a B1 shade (the whitest shade on our colour guide). White Dental Beauty is an excellent option for patients looking to whiten their teeth at home while still achieving head-turning results. Its specially created sensitivity formula made with 5% carbamide peroxide is also a good option for patients with more sensitive teeth.

Composite bonding is another signature at Cathedral Dental. Can you tell us a little about that?

It is a minimally invasive cosmetic treatment that can be completed in just one appointment. Using composite resin, we can fill in small cracks, chips, and gaps in the teeth to help create a more even and photogenic smile. Patients love the results – and the speed with which they can be achieved. This is a much safer way to achieve a perfect smile as it does very little or no damage to your natural teeth, unlike smile makeovers you see on TikTok, aka 'Shark Teeth' (where your teeth are drilled into tiny stumps). The long-term health of your teeth is our priority.

What do you think sets Cathedral Dental apart from other practices?

Our commitment to putting our patients first means we offer evening and weekend appointments and a practice payment plan to help patients spread the cost of treatment. The team culture is also an essential aspect of the business. We have created a super friendly, high energy and fun environment. These positive vibes are always picked up on by patients, making their experience even better.

We also stay at the forefront of the dental industry, constantly bringing in the newest technologies and equipment to ensure all our patients get the best treatments.

What's the most rewarding aspect of the job?

When I see a patient who was ashamed and lacking confidence at the start of a treatment, come into the surgery with a beaming smile. It is the best feeling to be able to provide that and be a part of someone's journey!

Cathedral Dental is at 15 Angel Hill, Bury St Edmunds. Find out more at cathedraldental.co.uk
